Each week I have written an article on Chiropractic and I hope that at some time I have discussed your particular problem. However, in concluding my series I wish to warn you that 67% of all children have curvature of the spine and bad posture. Eight girls to one boy have this curvature and if not corrected will produce gopher, gall stones, appendicitis, fallen stomach and many displacements of the internal organs often requiring the heavy expense of an operation.

IT IS THE LEADING CURATIVE SCIENCE WHY NOT CONSULT DR. SIEKMANN
